

S251 | 24" WIDEBELT SANDER

A robust widebelt sander with minimal footprint.

The Cantek S251 24" Widebelt Sander is compact and versatile with a combination sanding unit for calibration and final sanding. The robust sanding unit and versatile frame ensure optimum sanding results. Motorized thickness adjustment with digital thickness control for fast and accurate table adjustment.

Key Advantages.

- Accurate digital thickness control with both Inch & Metric settings allows the operator to key in the desired thickness, and table will automatically move into position.
- Combination sanding unit with 3-3/8" rubber contact drum and 2" wide sanding platen for a wide range of sanding applications.
- Small footprint.
- Electronic belt tracking for optimum belt life and sanding results.
- Ammeter for load monitoring to ensure the proper amount of material is removed according to the selected grit.
- Disc brake on the main motor allows for faster belt changes.
- Pneumatic belt tensioning w/ quick release outboard support to facilitate fast belt changes.
- Material over-height limit switch.
- Interlocks are located on all access doors.

Specifications.
